

Random Writings Second Edition

More witty commentary on the important matters of the day including the Credit Crunch. Plus a collection of general ramblings about all sorts of things from everyday life. Includes all the chapters in Random Writings (First Edition) plus much more material. A book jam-packed with witty commentary on important matters of the day and other things, most of these stories were written between 2009 and 2011, starting soon after the Credit Crunch had nearly sunk the world economy - and might yet do so. Consisting mostly of general rubbish, they do not pretend to compete with the analytical expertise of Robert Peston or experts in banks (Ha!) and governments (Ha ha!) but some of them may contain just a grain of truth or common sense. One or two have dispensed with the rubbish and contain considerably more truth, and one is absolutely jam-packed with the truth. See if you can spot it.
