

The Art of Digital Branding

Here's the definitive guide to building a Web presence that will increase revenue, improve customer relations, and enhance brand loyalty. Author Ian Cocoran, a digital brand expert, explains traditional branding and how the same principles can be applied to Web sites, no matter what the industry. Chapters cover the entire range of site content: color schemes and menu formats and the pivotal roles they play; incorporating essentials such as company history, careers, site maps, search engines, and FAQs; choosing one global portal versus country-specific content; encouraging and retaining traffic flow; adding depth to the Web experience with audio, video, and animation; maximizing site functionality for online shopping or software updates; and much more. Step into the digital age with expert help from *The Art of Digital Branding*.
