

## African Cash Cow: BUSINESS & ECONOMICS

This is Megiddo Merri-Amen and I would like to share something with you that I recently discovered that can build up your Lands and Change your life. My sister just recently came back from the Mother Land and while she was there, she met two Zulu Princesses from a small village south of the Congo. They were using a unique way to make money Online. They called it African Cash Cow. These Zulu Sistas were selling FREE phone numbers to individuals all over the World.

Below is a short video I discovered in English demonstrating the exact method they were using to make hundreds of dollars a day with FREE Vanity phone numbers. I also discovered where you can get the last missing pieces so you can start making this kind of money today! This Course is highly guarded by a secret group of people called Internet Marketers! The Zulu sisters were taught this by one of the Internet Marketers who was there on Safari hunting Big Game. These I.M. people have found different ways to make money on the Internet from home using their computers and smart phones. This secret has the potential to change your life.

I Wanted everybody to have the opportunity to see how this works, however the I.M. guy was charging \$100 to his private students. So I contacted him and he sold me Private Label Rights/Master Resale Rights which allows me to resale this for a lower price. Enjoy and fell free to give it away to anyone who needs extra money. -Hotep
